

In order to make better utilization of the Extension Port (Zone-B), Chairman, Port Trust held an interactive meeting with the Port users at the Zone-B premises. Various suggestions received from Port users includes Demarcation of Custom Bound area to allot the land for commercial purpose, demolition of underutilized sheds for providing additional open storage space, establishment of floating dry-dock, floating restaurants and adventure tourism.

The Extension Port (Zone-B) with a maximum draft of 3 metres facilitates cargo handling facilities for sailing vessels and barges. In addition, there are around 6 sheds and open storage space of 40,500 Sq.m. for storage of cargo.
